

DIRECTORS' REVIEW

We are pleased to present un-audited financial results of the Company for first quarter ended March 31, 2024.

FINANCIAL RESULTS

		Quarter ended March 31		
		2024	2023	
Net Sales	(Rs Million)	17,450	17,608	
Net Income after Tax	(Rs Million)	1,808	2,593	
Earnings Per Share	(Rupees)	195.77	280.73	

Pakistan continues to face tough challenges including rising costs and economic uncertainties. Overall, the adverse business environment has affected our sales and profits due to higher operating, raw material, and energy costs.

BUSINESS REVIEW

The demand from industrial sectors specially textiles remained low due to energy costs and gas shortages. However, the Food sectors performed better where our sales were higher than last year. In the Animal Nutrition Ingredients sector, while demand stayed consistent, we faced challenges from low prices of competing feed ingredients. Despite above challenging market, our efforts to improve ingredient quality through process enhancements and pricing adjustments helped maintain steady sales.

FUTURE OUTLOOK

The economic & business environment remains uncertain, which affects our business. But we're focused on growth, cost optimization, and serving our customers better. We're optimistic about the future, aiming for sustained growth and better returns for our stakeholders.

ACKNOWLEDGEMENT

We extend our heartfelt gratitude to our esteemed customers, shareholders, bankers, suppliers, and our dedicated employees. Their loyalty, trust, and unwavering support have been the cornerstone of our resilience amidst these challenging times.

May Allah grant us the strength and wisdom to navigate through the challenges ahead. A'meen!

On behalf of the Board

Ingredion Inc. Chicago, U.S.A., holds majority shares of the Company. The registered office of the Company is situated at Rakh Canal, East Road, Faisalabad. The Company uses maize as the basic raw material to manufacture and sell a number of industrial products, principal ones being industrial starches, liquid glucose, dextrose, dextrin and gluten meals.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These condensed interim financial statements of the Company have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34 Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34 or IFAS, the provisions of and directives issued under the Companies Act, 2017 have been followed.

The condensed interim financial statements does not include information required for full annual financial statements and should be read in conjunction with the audited annual financial statements of the Company for the year ended 31 December 2023.

These condensed interim financial statements are being submitted to the shareholders as required by section 237 of the Companies Act, 2017 and the Rule Book of Pakistan Stock Exchange Limited.

The comparative statement of financial position presented in these condensed interim financial statements has been extracted from the audited annual financial statements of the Company for the year ended 31 December 2023, whereas comparative condensed interim statement of profit or loss, condensed interim statement of comprehensive income, condensed interim statement of changes in equity and condensed interim statement of cash flows have been extracted from the un-audited condensed interim financial statements of the Company for the three months period ended 31 March 2023.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention except for certain employee retirement benefits and lease liabilities which are stated at present value.

2.3 Judgements and estimates

In preparing this condensed interim financial information, management make judgement, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. The significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as applied to the financial statements as at and for the year ended 31 December 2023.

2.4 Functional and presentation currency

This condensed interim financial information is presented in Pakistan Rupees which is also the Company's functional currency.

3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted for the preparation of the condensed interim financial information are the same as those applied in the preparation of the annual financial statements of the Company for the year ended 31 December 2023.

- **3.1** During the year certain amendments to standards or new interpretations became effective, however, the amendments or interpretations did not have any material effect on the financial statements of the Company.
- 3.2 The following International Financial Reporting Standards (IFRS Standards) as notified under the Companies Act, 2017 and the amendments and the interpretation thereto will be effective for accounting periods beginning on or after 01 January 2024:
- Classification of liabilities as current or non-current (Amendments to IAS 1 in January 2020) apply retrospectively for the annual periods beginning on or after 1 January 2024 (as deferred vide amendments to IAS 1 in October 2022) with earlier application permitted. These amendments in the standards have been added to further clarify when a liability is classified as current. Convertible debt may need to be reclassified as 'current'. The standard also amends the aspect of classification of liability as non-current by requiring the assessment of the entity's right at the end of the reporting period to defer the settlement of liability for at least twelve months after the reporting period. An entity's expectation and discretion at the reporting date to refinance or to reschedule payments on a long-term basis are no longer relevant for the classification of a liability as current or non-current. An entity shall apply those amendments retrospectively in accordance with IAS 8.
- Non-current Liabilities with Covenants (amendment to IAS 1 in October 2022) aims to improve the information an entity provides when its right to defer settlement of a liability for at least twelve months is subject to compliance with conditions. The amendment is also intended to address concerns about classifying such a liability as current or non-current. Only covenants with which a company must comply on or before the reporting date affect the classification of a liability as current or non-current. Covenants with which the company must comply after the reporting date (i.e. future covenants) do not affect a liability's classification at that date. However, when non-current liabilities are subject to future covenants, companies will now need to disclose information to help users understand the risk that those liabilities could become repayable within 12 months after the reporting date. The amendments apply retrospectively for annual reporting periods beginning on or after 1 January 2024, with earlier application permitted. These amendments also specify the transition requirements for companies that may have early-adopted the previously issued but not yet effective 2020 amendments to IAS 1 (as referred above).
- Lease Liability in a Sale and Leaseback (amendment to IFRS 16 in September 2022) adds subsequent measurement requirements for sale and leaseback transactions that satisfy the requirements to be accounted for as a sale. The amendment confirms that on initial recognition, the seller-lessee includes variable lease payments when it measures a lease liability arising from a sale-and-leaseback transaction. After initial recognition, the seller-lessee applies the general requirements for subsequent accounting of the lease liability such that it recognizes no gain or loss relating to the right of use it retains. A seller-lessee may adopt different approaches that satisfy the new requirements on subsequent measurement. The amendments are effective for annual reporting periods beginning on or after 1 January 2024 with earlier application permitted. Under IAS 8, a seller-lessee will need to apply the amendments retrospectively to sale-and-leaseback transactions entered into or after the date of initial application of IFRS 16 and will need to identify and re-examine sale-and-leaseback transactions entered into since implementation of IFRS 16 in 2019, and potentially restate those that included variable lease payments. If an entity (a seller-lessee) applies the amendments arising from Lease Liability in a Sale and Leaseback for an earlier period, the entity shall disclose that fact.
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28) amend accounting treatment on loss of control of business or assets. The amendments also introduce new accounting for less frequent transaction that involves neither cost nor full step-up of certain retained interests in assets that are not businesses. The effective date for these changes has been deferred indefinitely until the completion of a broader review.

- Supplier Finance Arrangements (amendments to IAS 7 and IFRS 7) introduce two new disclosure objectives for a company to provide information about its supplier finance arrangements that would enable users (investors) to assess the effects of these arrangements on the company's liabilities and cash flows, and the company's exposure to liquidity risk. Under the amendments, companies also need to disclose the type and effect of non-cash changes in the carrying amounts of the financial liabilities that are part of a supplier finance arrangement. The amendments also add supplier finance arrangements as an example to the existing disclosure requirements in IFRS 7 on factors a company might consider when providing specific quantitative liquidity risk disclosures about its financial liabilities. The amendments are effective for periods beginning on or after 1 January 2024, with early application permitted. However, some relief from providing certain information in the year of initial application is available.
- Lack of Exchangeability (amendments to IAS 21) clarify:
 - when a currency is exchangeable into another currency; and
 - how a company estimates a spot rate when a currency lacks exchangeability.

Further, companies will need to provide new disclosures to help users assess the impact of using an estimated exchange rate on the financial statements. These disclosures might include:

- · the nature and financial impacts of the currency not being exchangeable;
- · the spot exchange rate used;
- · the estimation process; and
- risks to the company because the currency is not exchangeable.

The amendments apply for annual reporting periods beginning on or after 1 January 2025. Earlier application is permitted.

The above amendments does not have any material effect on the financial statements of the Company.
